Semiotics for Beginners

This third edition of the bestselling textbook has been fully revised, continuing to provide a concise introduction to the key concepts of semiotics in accessible and jargon-free language. Demystifying what is a complex, highly interdisciplinary field, key questions covered include: What are signs and codes? What can semiotics teach us about representation and reality? What tools does it offer ...

Semiotics: The Basics - 3rd Edition - Daniel Chandler ...

Chandler first defines a sign as something that stands for something else. "Semiotics involves the study of not only what we refer to as 'signs' in everyday speech, but of anything which 'stands for' something else." Semiotics works to analyze signs in context of a sign system, such as a medium or genre.

Icosilune » Daniel Chandler: Semiotics: The Basics

The author was one of the most important thinkers of the post-war era. Central to his thought was the idea that human understanding comes from our bodily experience of the world that we perceive: a deceptively simple argument, perhaps, but one that he felt had to be made in the wake of attacks from contemporary science and the philosophy of Descartes on the reliability of human perception.
